Humming Bird

“Welded steel large sculpture with 3-D elements throughout.”

www.ocampolsiva.com

Location: Marina Entrance, 110 NE 6th Street

Ocamposilva's artworks are an interpretation of the world where they were raised; the Andes and the Tropic, a world filled with a great diversity of colors. They want to show in their artworks the passion for life, colors, magic and poetry.

Ocamposilva's created their own style with character using bright color. Shapes of the human form appear and pervade on the surface plane showing poignancy and verb in all their artworks that become an abstraction of the

figurative forms; where each color is expressed by itself.

The Humming Bird sits high on a pedestal at the Marina Entrance and is 5.833' x 7.5' x 5' with a base of 40" x 18".
