In the realm of public art, the [City of Cape Coral](#) has jazzed up its landscaping with a sculpture by the husband and wife artistic team of Gus and Lina Ocamposilva. This aluminum sculpture, entitled "Sailing," is an abstract of boat sails that gives the viewer a sense of movement with an airy and playful appeal. "The site-specific commissioned sculpture captures color through the contrasting tones of sunrise, sunset, and

the reflection of the sun off the water," says Kaitlyn Pearson, Cape Coral's public information specialist. The [Cape Coral Community Redevelopment Agency](#) (CRA) chose the talented sculpture team from a field of more than 83 applicants to create a unique sculpture for the community. "The purpose of this sculpture is to add color and beauty to South Cape while celebrating public art," adds Pearson. The sculpture was installed on May 31, 2002, at the roundabout on SE 47th Terrace at Vincennes Blvd.
